8,029 Hours of Service
were generously donated by volunteers

691 Volunteers
lent a hand in construction, recycling, the ReStore, in the office, at events, on the board, or committees
Berkleytown  
Years ago, Habitat acquired a piece of land on Northwest Henry Lane in Ashland. Unable to build on or sell the property, Habitat discovered the small lot was located in the heart of Berkleytown, an early 20th-century African American community. Habitat donated the land to the Town of Ashland to be used for a Berkleytown Heritage Park to honor the African American history of the area.

Relocation  
In March, the ReStore & administrative offices moved to Cold Harbor Business Center off Stonewall Parkway. This provided 3,000 additional square feet of retail space.

Ragan Memorial House  
As one of Ragan Phillips' last powerful acts of kindness, he provided a matching gift to support Habitat families. Our 73rd home on N. Center Street in Ashland was built in Ragan's memory. The homeowner, Tyree, moved into the home in November.

A New Neighborhood  
Habitat purchased 1.5 acres in the town of Ashland that will be subdivided into 5 affordable homes in the future.

Golf Tournament  
Habitat held its first annual Golf Tournament with over 100 participants and 32 sponsors.

Going Solar  
We were the second Habitat in Virginia to partner with GiveSolar. We installed 14 solar panels on a Habitat home built in 2011. Solar is an additional way to make our homes energy efficient and reduce homeowners' expenses.
